

# KEEP COOL OR STAY HOT

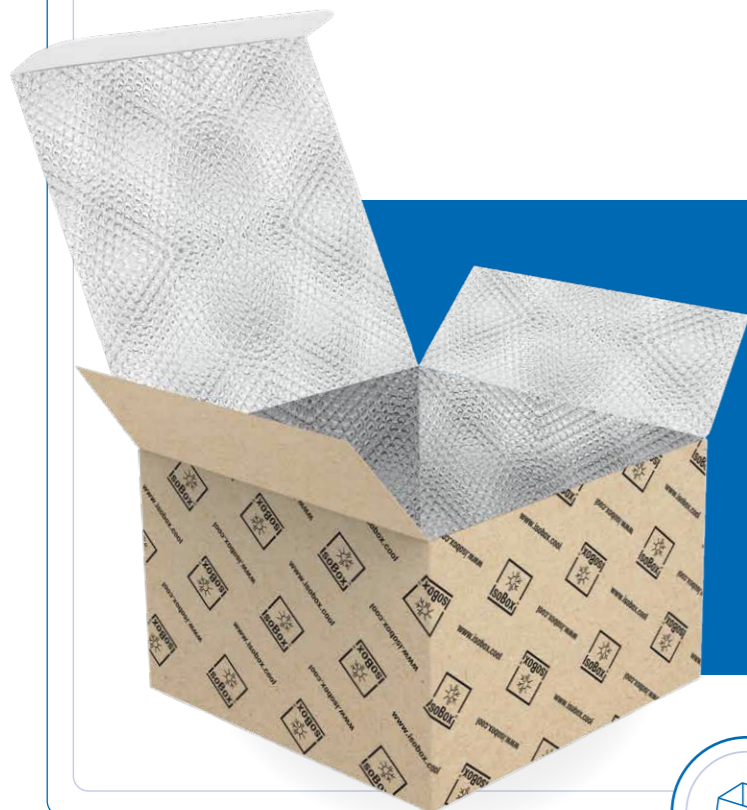

A sustainable packaging solution  
for your temperature-controlled transport

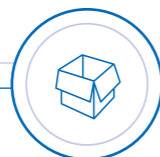

# ADVANTAGES AT A GLANCE

## Keep a cool head, despite a temperature-controlled supply chain

- ✓ An insulating layer guarantees constant and reliable cooling
- ✓ Condensation resistant
- ✓ No extra costs: Standard cooling pads can be used for cooling
- ✓ Also practical for heated transport
- ✓ Save time plus easy handling thanks to automatic bottoms with manual or machine assembly
- ✓ Custom design options
- ✓ Metallised bubble wrap protects merchandise from compression and impacts
- ✓ Can be folded for cost-effective storage
- ✓ Saves disposal costs compared to other systems
- ✓ Low tare weight
- ✓ Modular assembly for your custom requirements (200x200x200mm or 400x300x200mm)
- ✓ One-piece packaging prevents thermal bridges
- ✓ 100 % recyclable

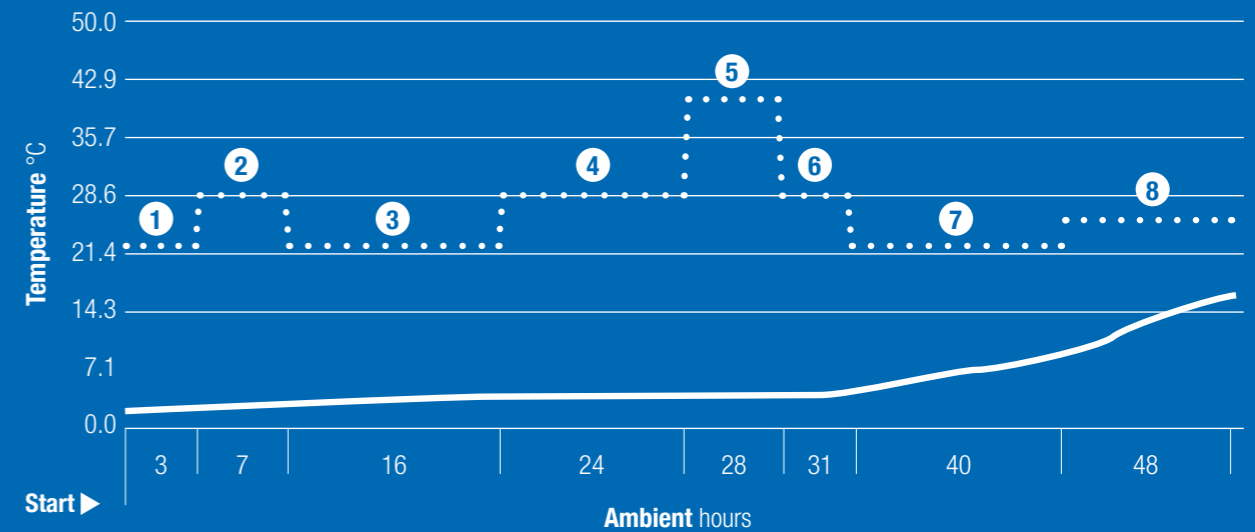

Comprehensive protection against external temperatures

# TESTED QUALITY

## Thermal insulation performance report

— Temperature in the box      ..... Ambient temperature

## Measurement specifications

**Product:** IsoBox®  
**Test duration:** 48 hours  
**Test environment:** climate chamber cabin  
 test volume: 90 % mass  
**Starting temperature:** 0 °C  
**Cooling agent:** 3.5 kg cool gel

## Temperature profile

Phase	Temperature °C	Ambient hours
1	22	3
2	28	4
3	22	9
4	28	8
5	40	4
6	28	3
7	22	9
8	25	8

# ECONOMICALLY EFFICIENT. ECOLOGICALLY IMPRESSIVE.

100 % recyclable

The dual-material solution, made from paper and bubble wrap, is completely recyclable. Adhesive points enable easy separation and disposal of components.

Multiple utilisation is also possible.

Stepping into a sustainable future responsibly.

# UNIVERSALLY APPLICABLE.

# PERFECT FOR YOUR INDUSTRY.

Medicine:

Vaccines  
Insulins

Food:

Fresh goods  
Frozen foods

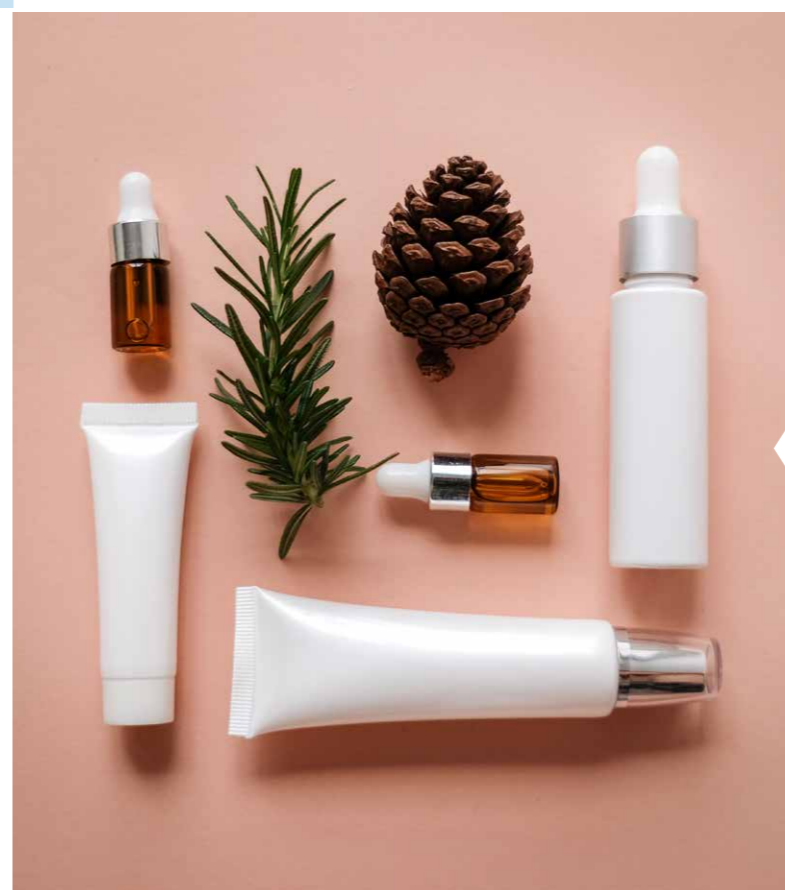

Industrial applications:

Oils  
Solutions

Cosmetics:

Lotions  
Creams

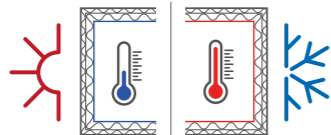

# WE ENSURE A RELIABLE COLD CHAIN.\*

Universally applicable.  
Perfect for your industry.

Fresh goods  
Frozen foods

\* Also ideal for  
pharmaceutical or  
cosmetic products and  
industrial applications.

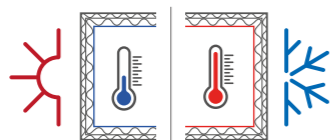

# SAFER COLD TRANSPORT FOR YOUR MEDICAL PRODUCTS.\*

Universally applicable.  
Perfect for your industry.

Vaccines  
Insulins

\* Also ideal for cosmetic products, industrial applications and foods.

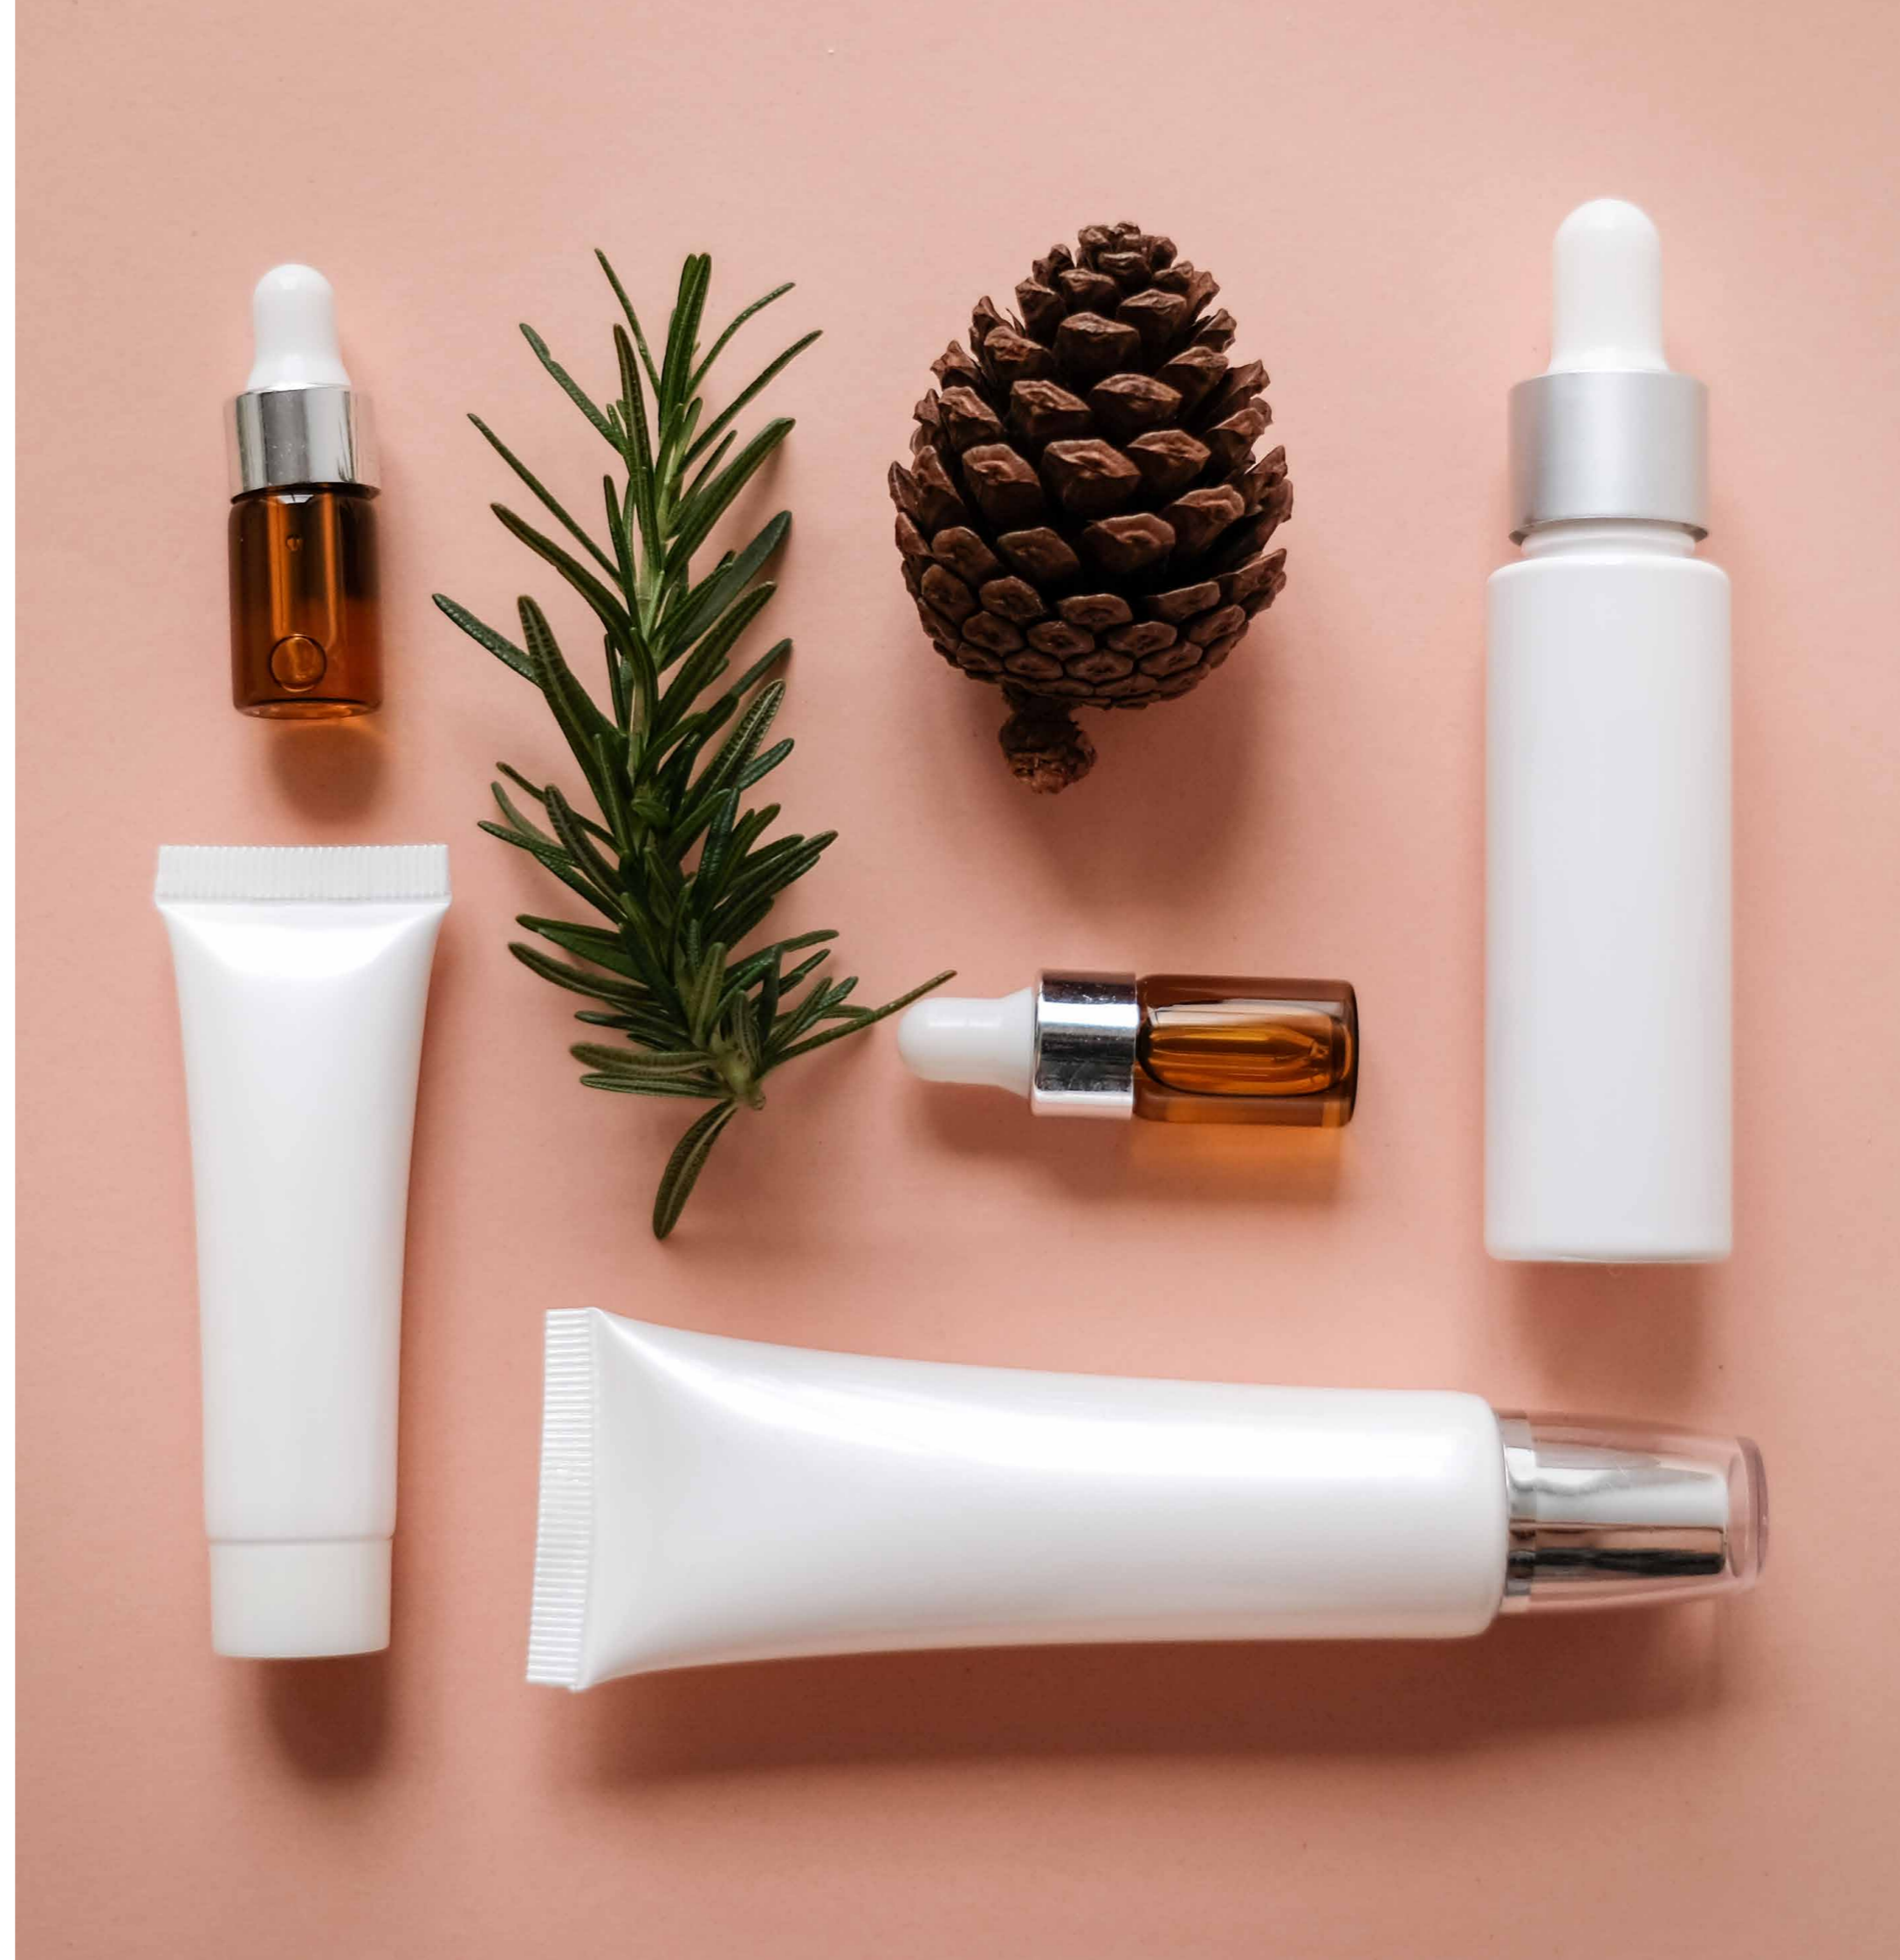

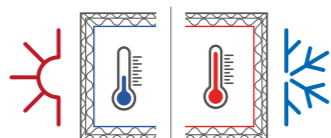

# WE ENSURE A FRESH PRESENTATION FOR YOUR COSMETICS.\*

Universally applicable.  
Perfect for your industry.

Lotions  
Creams

\* Also ideal for  
pharmaceutical products,  
industrial applications  
and foods.

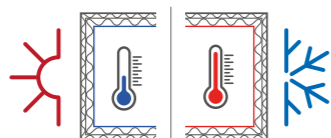

# SMOOTH FLOW OF YOUR INDUSTRIAL APPLICATIONS, THANKS TO A SECURE COLD CHAIN.\*

Universally applicable.  
Perfect for your industry.

Oils  
Solutions

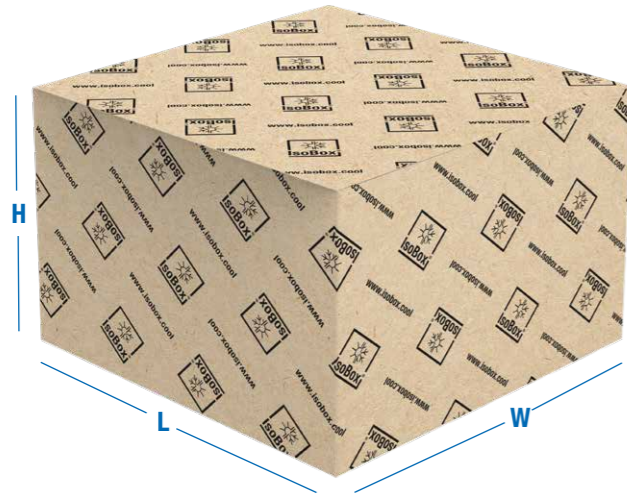

\* Also ideal for  
pharmaceutical products,  
cosmetic products  
and foods.

# DESIGNS

Perfect for your requirements

## Standard size 01

**Exterior dimensions:**  
L: 400 mm x W: 300 mm x H: 200 mm  
holding capacity: approx. 19l

(smaller quantity possible)

## Standard size 02

**Exterior dimensions:**  
L: 200 mm x W: 200 mm x H: 200 mm  
holding capacity: approx. 6l

(smaller quantity possible)

Additional sizes available on request

## Your design options

01

Natural paper box  
with IsoBox pattern

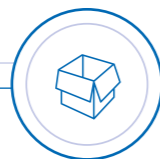

02

White box  
with IsoBox pattern

03

Your custom ad printed  
on the box
